 SEMESTER: Fall 2024
 CLASS DAYS: Online
 CLASS TIMES: No Class Time

Name	Phone Number	Email	Office	Hours
Jessica Williams MSN, RN, Course Leader	806.716.2977 (o)	jlwilliams@southplainscollege.edu	AH100C	By appointment

“South Plains College improves each student’s life.”

GENERAL COURSE INFORMATION

It is the responsibility of each student to be familiar with the content and requirements listed in the course syllabus

COURSE DESCRIPTION

This course will provide an in-depth introduction to basic concepts and fundamental principles of human pathophysiology for advanced undergraduate students. This course will evaluate the study of the structure and function of human anatomy, including the neuroendocrine, integumentary, musculoskeletal, digestive, urinary, reproductive, respiratory, and circulatory systems. Content is specialized to follow the classical division between general pathology and systemic pathology. The aim of the course is to provide the student with a systematic approach for understanding disease and rational therapeutic design. Pathophysiology bridges basic science and clinical practice with an emphasis on integrated mechanistic understanding of the molecular, structural, and functional alterations in cells, tissues, and organ systems that underlie human disease.

This course is an online course meaning Blackboard will be utilized predominantly for content and communication. The student is expected to check the Blackboard course frequently (as in every day) to check for new messages, access content, get assignment postings, take quizzes, and view changes to the calendar, schedule or content should this become necessary.

If you are having difficulty accessing or using any components of Blackboard please use the following contact information. For specific help email Amy Shriver ashriver@southplainscollege.edu or call 806-716-2962. For an email address that reaches everyone in the Instructional Technology department, please use blackboard@southplainscollege.edu.

STUDENT LEARNING OUTCOMES

Upon successful completion of this course, students will:

1. Identify the essential features of basic disease processes.
2. Interpret the clinical manifestations of specific diseases in terms of etiology and pathogenesis.
3. Describe the relationship between normal anatomy and physiology and alterations produced by disease.
4. Recognize basic pathophysiologic concepts.

5. Describe the impact of health promotion, disease prevention, and risk reduction on selected pathologies.

ACADEMIC INTEGRITY

Refer to the SPC student handbook. Refer to the “Honesty Policy” located in the student handbook and appendix for examples of plagiarism. Violations of the honesty policy include cheating during testing, plagiarizing another’s work, and falsifying records will result in failure of the course.

PLAGARISM

Offering the work of another as one's own, without proper acknowledgment, is plagiarism. Any student who fails to give credit for quotations or essentially identical expression of material taken from books, encyclopedias, magazines, websites such as: blogs, journals, or articles, other referenced works, from themes, reports, and/or other writings of a fellow student, is guilty of plagiarism. If there is any suspicion of work completed by Artificial Intelligence (A.I.), the student and their work may be questioned, and if proven that A.I. was used will be considered guilty of plagiarism.

INSTRUCTIONAL METHODS

Teaching and learning methods with the use of Blackboard, may include online lecture, presentation, group discussion, use of audiovisuals, on-line information, PowerPoints, chapter reviews, reading, written assignments, exams, pop-quizzes, and case studies.

COMMUNICATON

Communication between faculty and students is important and taken seriously. Instructors recognize and understand the commitment to students in this course. Students are responsible for making appointments and asking questions to clarify any questions or procedures. Preferred communication methods are through individualized faculty office hours, email, or office phone and occur during regular hours. If a phone call is not answered, please leave a message and send an e-mail link on Blackboard course page or SPC Microsoft email. Allow 24 hours for a response during weekdays and 48 hours during weekends and holidays. When responding you will be treated with collegial respect and students are expected to communicate likewise in a professional manner.

SPECIFIC COURSE INFORMATION TEXT AND MATERIALS **(If a newer edition is available, the newer is the book of choice)**

TEXTBOOKS AND OTHER MATERIALS

Required Resources

Hard Copy Book : Huether, S.E., & McCance, K.L. (2021). *Understanding Pathophysiology* (7th ed.), Mosby. ISBN: 9780323639088**

Ebook : Huether, S.E., & McCance, K.L. (2021). *Understanding Pathophysiology* (7th ed.), Mosby. ISBN: 9780323672825

Recommended: American Psychological Association. (2020). *Publication manual of the American Psychological Association* (7th ed.), Washington, DC: Author. ISBN:9781433832161

ASSIGNMENTS

Syllabus Acknowledgement:

Students are expected to read, take quiz, and submit an acknowledgement via Blackboard the they have read and understand the syllabus by the end of the 1st week of school.

Blackboard Module Exams:

Student will be required to complete each module exam listed on the class schedule for 20% of the final grade. Module exams vary in the number of questions; however, the student will receive 1 minute per question to complete the exam. Exams are located in the Blackboard for each week. Module examinations will be open-book and taken from the student's home or preferred location and are due to be completed by the dates listed on the class schedule. The student will have 1 attempt to take the exam, the best score will be recorded. These exams are not to be done in groups, but individually. Once entered the student must finish the exam in one setting; if a student exits the exam it will automatically submit. It is the student's responsibility to notify the facilitator if technical difficulty occurs during the examination **immediately** through SPC email. **Without proper notification within 24 hours, access will not be granted, and possible questions missed will not be reviewed.**

During the exam NEVER click the Back or Forward. If the screen freezes the student may try the Refresh button or log out and immediately back into Blackboard. Let the screen resolve when saving an answer before clicking next. Exam reviews are not permitted for this course. There are no "dropped" grades or extra credit assignments in this course. It is student's responsibility to keep up with all assignments on calendar.

Policy on Exam Administration:

Exams will be administered according to the schedule set by the course facilitator documented in the course syllabus. Any changes to the exam schedule will be at the discretion of the course facilitator.

To better prepare the student for the licensure exam testing format, unit, and comprehensive exams will be administered as follows:

- Questions will be given to the student one at a time.
- The student must answer and save the answer before going to the next question.
- The student will not be allowed to return to previous questions.
- Any question not saved by the student will be marked wrong.
- There are no "dropped" grades in this course.

Blackboard Midterm Exam:

Midterm is worth 20% of your course average. Midterm will be given in the 9th week and will be over material from Modules 1-10. You will have 2 hours to complete 100 questions. Questions will be multiple choice, fill in the blank, short answer, and essay format. The student will have 1 attempt to take the exam, the best score will be recorded. These exams are not to be done in groups, but individually. Once entered the student must finish the exam in one setting; if a student exits the exam it will automatically submit. It is the student's responsibility to notify the facilitator if technical difficulty occurs during the examination **immediately** through SPC email. **Without proper notification within 24 hours, access will not be granted, and possible questions missed will not be reviewed.**

During the exam NEVER click the Back or Forward. If the screen freezes the student may try the Refresh button or log out and immediately back into Blackboard. Let the screen resolve when saving an answer before clicking next. Exam reviews are not permitted for this course. There are no "dropped" grades or extra credit assignments in this course. It is student's responsibility to keep up with all assignments on calendar.

Blackboard Module Pretests and Quizzes:

The student will be required to complete Blackboard pretests accounting for 10% of the final grade. Pretests vary in the number of questions provided on Blackboard. The student will receive 3 attempts to complete each pretest prior to the due date. The pretests are open book and are not to be done in groups, but individually. Students must finish the pretest in one sitting once entered. It is the student's responsibility to notify the facilitator if technical difficulty occurs immediately through SPC email or via text messaging. Evolve modules will have a link on Blackboard. It is student's responsibility to keep up with all assignments on calendar.

Final Concept Map:

Each student will complete one-individualized concept map accounting for 25% of the final course grade. Concept mapping is a diagrammatic method of teaching and learning that allows students to conceptualize relationships between risk factors, disease process, and clinical manifestations of the disease, diagnostic procedures, and interventions for treatment of the disease process. Each student will choose one topic from a list provided by the instructor for their concept map to develop a complete and thorough concept map of a disease process. Every student will have a different topic. Students may find the concept map assignment list, example of concept mapping, and a rubric template on Blackboard under Course Content, Concept mapping. This assignment will require for student to upload a completed map on Blackboard, provide a video summary of their topic via Flip.com resource provided by instructor. After presenting, the student will be required to use Flip.com resource to reply to two fellow students. This is due by the dates listed on the class schedule to the assignment drop box located on the left-hand column of your Blackboard tool bar. It is student's responsibility to keep up with all assignments on calendar.

The Final Concept Map and Replies must be completed by the due date listed on the class schedule. The student must notify the instructor before the due date if the student anticipates the assignment will be late. Failure to upload the final concept map by the due date to the Blackboard assignment link will automatically result in a 50-point deduction on Day 1 that it is late. Day 2 past the due date the student will receive a zero for the assignment. All students will complete their own map and are required to submit individual concept maps to the assignment submit tab for grading. Failure to submit individual assignments will result in a deduction. **It is the student's responsibility to make sure their uploaded work is downloadable for the instructor to grade. All uploaded work needs to be in .ppt.**

Final Exam:

Final Exam is worth **25%** of the course grade. Students will take final via blackboard. This is a timed test and must be completed within the time allotted. During the exam NEVER click the Back or Forward. If the screen freezes the student may try the Refresh button or log out and immediately back into Blackboard. Let the screen resolve when saving an answer before clicking next.

Discussion Board Forum and Case Study:

This section accounts for 20% of the final course grade. Students will be required to **complete their own discussion and reply to two-three of their peer's discussion** questions on the board forum as well as to reply to a peer that commented on the student's discussion weekly to receive full credit. Students may find the grading rubric on Blackboard under Course Content, Discussion Board Forum module. This assignment is due by the dates listed on the class schedule. Failure to complete the discussion board by the due dates may result in a zero. There are no makeups for discussion boards as this is an interactive assignment with peers and must be completed during the assigned time frame. It is the student's responsibility to locate the discussion forum in blackboard; if a student is unable to view the forum the student should notify the course facilitator on the first

day of the forum and notify information technology (IT). **It is student's responsibility to keep up with all assignments on calendar and to complete all assignments in a timely manner.**

Every other week will consist of a concept map or a case study with replies to 2 or more students and response to at least one:

- **Case Study:** Case study assignments are 2 parts: Case Study and Case Study Discussion. Answer the discussion question(s) in essay style. Must be completed as a Word document provided on Blackboard. All information must be written with correct grammar and punctuation. **May only use 2 quoted sentences, the rest need to be in students own writing with citations.** Other sentences need to be information in your own words with references cited. Must include 2 or more scholarly references. One reference must be the course textbook and one scholarly source. The in-text reference and reference page must be in APA 7th ed. formatting. All references can only be 5 years old, anything older will not be counted.
 - **Case Study Discussion:** Must provide a response in Discussion about case studies, what you picked, why you picked, what you learned from each case study. Use All Discussion Criteria as a guide.
- **Concept Map and Discussion:** Completing the portion of concept map. Must be completed as a PowerPoint. Must include 2 references. One reference must be the course textbook and one scholarly source. The in-text reference and reference page must be in APA 7th ed. formatting.
- **All Discussion Criteria:** Student must reply to 2 of their peer's discussions with at least 100-word count text, commenting on their discussion answer or concept map pathology in the Blackboard discussion board. In addition to peer replies, the student must also reply to back to their peer's response from individual discussion. If no peers reply to the student's discussion, then the student will need to reply to a 3rd peer's discussion to receive full credit. Overall, 3 or more responses should be made for discussion credit.
- **It is the student's responsibility to upload work in PowerPoint or on discussion board. This allows the instructor to provide feedback on document.**

Blackboard Lecture :

Lecture will be provided on Blackboard by an instructor through PowerPoint, PowerPoint voiceover, YouTube videos, or end of chapter review, as an extra learning tool. Lectures and PowerPoint will help students make connections to the weekly subjects and give additional information for students to add in their discussion. It is student's responsibility to keep up with all assignments on calendar.

Late Assignments and Extra Credit:

Work is due on the assigned dates and times in Central Standard Time (CST). Students should contact faculty prior to the due date and time if they anticipate material will be late. Please note that contacting faculty will not guarantee the receipt of an extension for the assignment. Due to the time constraints within this course, there are no allowances for extra credit assignments or resubmissions of an assignment. Please allow enough time for preparation and submission of each assignment prior to the scheduled due date.

GRADING POLICY

The grade for this course will be determined upon completion of the following components:

Blackboard Module Exams & Midterm Exam	20%
Blackboard Module Pretest & Quizzes	10%

Final Concept Map	25%
Final Exam	25%
Discussion Board Forum	20%
Final Grade Total	100%

Course grades are based on the following scale:

- A= 90-100% Excellent
- B= 80-89% Good
- C= 70-79% Average
- D= 60-69% Below Average
- F= 59% Below Failing

TO CALCULATE YOUR OVERALL AVERAGE: DO NOT ROUND

- A. Take your **Module Exam and Midterm Average** and multiply it by 0.2. *Example: Grade of 81 x 0.2 = 16.2*
- B. Then take your **Pretest and Quizzes Average** and multiply it by 0.1 *Example: Grade of 84 x 0.1 = 8.4*
- C. Then take your **Discussion Board Forum** and multiply it by 0.2. *Example: Grade of 80 x 0.2 = 16*
- D. Then take your **Final Concept Map** and multiply it by .25: *Example: Grade of 88 x .25= 22*
- E. Then take your **Final Exam** and multiply it by 0.25. *Example: Grade of 90 x 0.25 = 22.5*
- F. *Add: A+B+C+D+E together to get your overall course average: 16.2+8.4+16+22+22.5= 84.1 NO ROUNDING OF AVERAGE FOR FINAL GRADE.*

CIVILITY

While there are no classroom meetings for this course, students are expected to demonstrate respect and civility towards faculty and other students in an online environment. Students are expected to assist in maintaining a virtual classroom environment that is conducive to learning. In order to assure that all students have the opportunity to gain information from the learning environment; students are prohibited from engaging in any form of distraction, disrespect, inappropriate language or behavior in online interactions. Inappropriate behavior in the virtual classroom will be dealt with by the course faculty on an individual basis. **Please use the faculty email as the primary source of communication and give your instructor 24 hours to answer your email.** There are no office hours for this course.

Intellectual Exchange Statement

In South Plains College courses, the instructor will establish and support an environment that values and nurtures individual and group difference and encourages engagement and interaction. Understanding and respecting multiple experiences and perspectives will serve to challenge and stimulate all of us to learn about others, about the larger world and about ourselves. By promoting intellectual exchange, we will not only mirror society as it is, but also model society as it should and can be.

Disabilities Statement

Students with disabilities, including but not limited to physical, psychiatric, or learning disabilities, who wish to request accommodations in this class should notify the Disability Services Office early in the semester so that the appropriate arrangements may be made. In accordance with federal law, a student requesting accommodations must provide acceptable documentation of his/her disability to the Disability Services Office. For more information, call or visit the Disability Services Office at Levelland (Student Health & Wellness Office) 806-716-2577, Lubbock Centers (located at the Lubbock Downtown Center) 806-716-4675, or Plainview Center (Main Office) 806-716-4302.

Non-Discrimination Statement

South Plains College does not discriminate on the basis of race, color, national origin, sex, disability or age in its programs and activities. The following person has been designated to handle inquiries regarding the non-discrimination policies: Vice President for Student Affairs, South Plains College, 1401 College Avenue, Box 5, Levelland, TX 79336. Phone number 806-716-2360

Title IX Pregnancy Accommodations Statement

If you are pregnant, or have given birth within six months, under Title IX you have a right to reasonable accommodations to help continue your education. To activate accommodations you must submit a [Title IX pregnancy accommodations request](#), along with specific medical documentation, to the Health and Wellness Center. Once approved, notification will be sent to the student and instructors. It is the student's responsibility to work with the instructor to arrange accommodations. Contact the Health and Wellness Center at 806-716-2529 or email dburleson@southplainscollege.edu for assistance.

CARE (Campus Assessment, Response, and Evaluation) Team

South Plains College is committed to ensuring the safety, health, and well-being of its students and community. To support its campus community SPC has a CARE Team. This is a dedicated group of campus professionals responsible for assessing and responding to students who could benefit from academic, emotional, or psychological support, as well as those presenting risk to the health or safety of the community. If you see someone experiencing challenges, appearing distressed, posing a threat to their safety or someone else's safety, or causing a significant disruption to the SPC community, please submit a [CARE Team referral](#). You may also submit a referral for yourself if you would like additional support. NOTE: In cases where a person's behavior poses an imminent threat to you or another, contact 911.

Campus Concealed Carry Statement

Texas Government Code 411.2031, et al. authorizes the carrying of a concealed handgun in South Plains College buildings only by persons who have been issued and are in possession of a Texas License to Carry a Handgun. Qualified law enforcement officers or those who are otherwise authorized to carry a concealed handgun in the State of Texas are also permitted to do so. Pursuant to Penal Code (PC) 46.035 and South Plains College policy, license holders may not carry a concealed handgun in restricted locations. For a list of locations and Frequently Asked Questions, please refer to the Campus Carry page at: <http://www.southplainscollege.edu/campuscarry.php>

Pursuant to PC 46.035, the open carrying of handguns is prohibited on all South Plains College campuses. Report violations to the College Police Department at 806-716-2396 or 9-1-

COVID-19

If you are experiencing any of the following symptoms, please do not attend class and either seek medical attention or get tested for COVID-19.

- Cough, shortness of breath, difficulty breathing
- Fever or chills
- Muscles or body aches
- Vomiting or diarrhea
- New loss of taste and smell

Please also notify DeEtte Edens, BSN, RN, Associate Director of Health & Wellness, at dedens@southplainscollege.edu or 806-716-2376

1. SPC will follow the recommended 5-day isolation period for individuals that test positive.
 - a. **Please note that day 0 is the date of positive test. Day 1 begins the first full day after the date of positive result.**
2. COVID reporting
 - a. Please have students and employees notify DeEtte Edens if they have tested positive to verify dates before returning to class or work.
 - b. The home tests are sufficient but students need to submit a photo of the positive result. The date of test must be written on the test result and an ID included in the photo. If tested elsewhere (clinic, pharmacy, etc.), please submit a copy of the doctor's note or email notification. Results may be emailed to DeEtte Edens, BSN, RN at dedens@southplainscollege.edu.
 - c. A student is clear to return to class without further assessment if they have completed:
 - The 5-day isolation period, symptoms have improved and
 - they are afebrile for 24 hours without the use of fever-reducing medication.
3. Please instruct students and employees to communicate with DeEtte Edens prior to their return date if still symptomatic at the end of the 5-day isolation.
4. Exposed individuals will not be required to quarantine. If exposed, SPC does request individuals closely monitor themselves. If an individual does become symptomatic, please do not attend class or work and be tested.
